378–388 Wabash Avenue CHICAGO

## Philosophy and Science

### The Mutation Theory (Vol. I)

**By Hugo De Vries**

Professor of Botany in the University of Amsterdam. Author of "Species and Varieties" and "Plant Breeding." Translated by Prof. A. B. Farmer and A. D. Darbishere. Published in two volumes, the first (now ready) dealing with the ORIGIN OF SPECIES BY MUTATION; the second (in preparation) with the ORIGIN OF VARIETIES. It will contain the complete treatment of the problem of the origin of new forms. **12 full page color illustrations (lithographed). 114 half-tone illustrations, 580 pp. Cloth, per vol., $4.00**

### Philosophy as a Science

**By Dr. Paul Carus (Tübingen)**

An epitome of the philosophy with which Dr. Carus has identified his life work. It contains an introduction writen by himself, summaries of his books, (48) and editorial articles (959) published in *The Monist* and *The Open Court;* and a subject index of 25 pp., making the volume a complete reference to date, of the writings of this author. **Introduction, summaries and index. 224 pp. Boards, 50c. Paper, 25.**

### Experiments on the Generation of Insects

**By Francesco Redi of Arezzo**

Translated from the Italian Edition of 1688, by Mab Bigelow. Book-lovers and students of classical periods in philosophy and science will find this a unique book. Printed from type on fine paper. Edition limited to 1000 copies. **Piquantly illustrated with 44 full page, 16th century drawings. Cloth, $2.00**

### Clavis Universalis

**By Arthur Collier**

Edited with introduction and notes by Ethel Bowman, M.A., Wellesley College. A book, otherwise inaccessible, which is curiously parallel to Berkeley's contemporary works and which anticipates Kant's first two antinomies. **140 pp. and index. Limited edition. Printed from type on fine paper. Cloth $1.50**

### Geometrical Solutions Derived from Mechanics

**A Treatise by Archimedes**

Recently discovered and translated from the Greek by Dr. J. L. Heiberg, Professor of Classical Philology at the University of Copenhagen; with an introduction by David Eugene Smith, President of Teachers College, Columbia University, N. Y. English version translated from the German by Lydia G. Robinson and reprinted from *The Monist*, April, 1909. **30 pp. Paper, 50c.**

### First Written Grammar of the Bontoc Igorot Language

**By Dr. Carl Wilhelm Seidenadel, University of Chicago**

An extensive vocabulary and a series of texts on Mythology, Folk Lore, Historical Episodes and Songs are included in this valuable work. The Bontoc Igorot are an interesting and highly developed people, one of the most powerful of the Philippine races. This is the first written grammar of their language and marks an epoch in their history. **500 pp. Illustrated. Edition limited to 1200 copies. Printed from type on fine paper and elegantly bound. $5.00 (20s.)**

## Religion and Literature

### The Pleroma, An Essay on the Origin of Christianity

**By Dr. Paul Carus**

Paganism and Judaism are brought before the test of scientific inquiry to discover what measure of truth lies in their claims of being the mother of Christianity. The author's method is purely scientific. History, legend, myth, dogma and philosophy are all put into the crucible of critique and the results show why Christianity was the fulfillment, or "Pleroma" of the needs of the times. **160 pp. with added collateral reading, notes and index. Cloth, $1.00**
